## Optical Bulletin:

Due to budget constraints, paper copies of bulletins will no longer be distributed by DMS. Bulletins are now available only at the [DMS Website](http://www.dss.state.mo.us/dms).

Bulletins will remain on this site only until incorporated into the [provider manuals](#) as appropriate, then deleted.

## **MC+ MANAGED CARE**

The information contained in this bulletin applies to coverage by the MC+ fee-for-service and Medicaid fee-for-service programs. The MC+ fee-for-service and Medicaid fee-for-service programs also provide coverage for those services carved out of the MC+ Managed Care benefit for MC+ Managed Care enrollees. Questions regarding services included in the MC+ Managed Care benefit should be directed to the enrollee's MC+ Managed Care health plan. Please check the patient's eligibility status prior to delivering a service.

## **HIPAA**

The Health Insurance Portability and Accountability Act (HIPAA) mandates that states allow providers to bill for services using the standard current versions of Current Procedural Terminology (CPT) book and the Health Care Procedure Coding System (HCPCS) book.

To prepare for the mandatory implementation of HIPAA, this bulletin contains information regarding the implementation of CPT and Level II procedure codes and modifiers which are replacing the state specific Level III procedure codes.

### **2003 CPT AND HCPCS UPDATE**

Effective July 1, 2003, Missouri Medicaid will begin accepting the 2003 versions of the *Current Procedural Terminology* (CPT) and the *Health Care Procedure Coding System* (HCPCS). The 2003 procedure codes have an effective date of July 1, 2003.

Providers may begin billing the 2003 CPT or HCPCS codes with appropriate modifier(s) for dates of service on or after July 1, 2003. A transition period will be given to allow time to make necessary changes. Providers may bill the old code through September 30, 2003. Claims for dates of service on or after October 1, 2003 must be submitted using the new 2003 CPT or HCPCS codes and modifiers. Claims submitted October 1, 2003 and after for dates of service prior to July 1, 2003 must be submitted using the old procedure codes and modifier(s).

Claims for both the old and new procedure codes must not be submitted for the same date of service for the same recipient during the transition period.

Changes, which occurred as a result of the update, include additions, deletions, and replacement of procedure codes including elimination of state specific Level III procedure codes and modifiers. See Attachment A for a list of the replacement procedure codes and modifiers.

Copies of the 2003 versions of the *Current Procedural Terminology* (CPT) and the *Health Care Procedure Coding System* (HCPCS) books may be purchased from your local medical bookstore.

### **EPSDT / HEALTHY CHILDREN AND YOUTH (HCY) VISION SCREEN**

For dates of service on or after October 16, 2003, billing for Early Periodic Screening Diagnosis and Treatment (EPSDT)/HCY vision screen must be billed using the CPT procedure code for reporting the vision screen. For dates of service prior to October 16, 2003, the state specific Level III procedure code must be billed. The replacement procedure code with modifier for procedure code W0025XP (*vision screen*) is 9942952. The replacement procedure code with modifier for W0025XQ (*vision screen with referral*) is 9942952UC.

The UC modifier must be used when the child is referred for follow-up care as a result of the screen. The UC modifier must always appear as the last modifier.

### **DELETED PROCEDURE CODES - HIPAA COMPLIANCE**

The following is a list of procedure codes being deleted:

Y4000 - Complete eye examination with refraction (6 or more components)	Y4020 - Single vision lens (1)
Y4001 - Limited eye examination (5 or less procedures)	Y4021 - Single vision lens (2)
Y4002 - Refraction	Y4030 - Trifocal lens (1)
Y4011 - Special frame	Y4031 - Trifocal lens (2)
Y4015 - Temple (one)	Y4040 - Cataract lens (1)
	Y4041 - Cataract lens (2)
	Y4049 - Special lens (1)

Y4050 - Special lens (2)  
 Y4060 - Bifocal, kryptok, lens (1)  
 Y4061 - Bifocal, kryptok, lens (2)  
 Y4062 - Bifocal, flat top, lens (1)  
 Y4063 - Bifocal, flat top, lens (2)  
 Y4064 - Bifocal, executive, lens (1)

Y4065 - Bifocal, executive, lens (2)  
 Y4070 - Miscellaneous repairs  
 V2623 – Prosthetic eye  
 V2740 - Tint, Plastic, Rose I or II, per lens  
 V2742 - Tint, Glass, Rose I or II, per lens  
 V2744 - Tint, photochromatic, per lens

### **CODES WITH MODIFIERS**

The implementation of the new procedure codes require the use of the following modifiers: RT (*right eye*); LT (*left eye*); 22 (*unusual procedural services*); 26 (*professional component*); 52 (*reduced services*); 55 (*postoperative management only*)

When a procedure code requires a modifier, the modifier *must* be used with the procedure code. Procedure codes without the appropriate modifier will deny on claims as non-covered service.

### **PROSTHETIC EYE SERVICES**

Procedure code V2623 (*prosthetic eye*), is being deleted and replaced by procedure codes V2623RT (*prosthetic eye, right*) and V2623LT (*prosthetic eye, left*). Procedure code V2623, without a modifier, was used to bill for a prosthetic eye which included the prescription and fitting. The replacement procedure codes are used to bill for the prosthetic eye only.

In order to be HIPAA compliant, CPT procedure code 9233026 (*prescription and fitting of ocular prosthesis, with medical supervision of adaptation*) has been added for coverage.

The date of service to use on the claim for procedure code 9233026 is the date the service was provided. The date of service to use on the claim for procedure codes V2623RT and V2623LT is the date the prosthesis was placed.

### **EYE EXAMINATIONS**

The following procedure codes must be used when billing Medicaid for an optical exam performed for refractive errors.

- S0620 (*Routine ophthalmological exam including refraction; new patient; complete exam*)
- S062022 (*Routine ophthalmological exam including refraction; new patient; limited exam*)
- S0621 (*Routine ophthalmological exam including refraction; established patient; complete exam*)
- S062122 (*Routine ophthalmological exam including refraction; established patient; limited exam*)

### **DIAGNOSIS CODES**

One or more of the following diagnosis codes must be used on all claims with procedure codes S0620, S062022, S0621, S062122.

3670 (hypermetropia)  
 3671 (myopia)  
 36720 (astigmatism, unspecified)  
 36721 (regular astigmatism)  
 36722 (irregular astigmatism)

36731 (anisometropia)  
 36732 (aniseikonia)  
 3674 (presbyopia)  
 36751 (paresis of accommodation)

36752 (total or complete internal  
ophthalmoplegia)

36753 (spasm of accommodation)

36781 (transient refractive change)

36789 (other disorders of refraction and  
accommodation, other)

3679 (unspecified disorder of refraction and  
accommodation)

Do *not* use the above diagnosis codes on claims when treating patients for disease or trauma to the eye.

#### MEDICARE PATIENTS

Eye examination procedure codes which include the refraction cannot be billed to Medicaid if the patient has Medicare Part B. Providers must bill Medicare Part B with the appropriate 2003 CPT eye examination procedure code. After Medicare's payment, providers then submit a crossover claim to Medicaid for reimbursement of allowed deductible and co-insurance.

#### EYE REFRACTION

Providers may not bill for a refraction (92015) only, unless the recipient has Medicare Part B coverage at the time of service.

#### EYE EXAMINATIONS FOR DISEASE/TRAUMA

When services are provided for disease or trauma, providers must bill Medicaid using the appropriate 2003 CPT procedure code(s) for the service(s) performed.
